Charles City, July 10, 2020 – With the funding assistance of a federal grant, the Heritage Public Library finalized a project to make library Wi-Fi even more available to residents and visitors in the vicinity of its Charles City Library location. The Library's free Wi-Fi is available twenty-four hours a day, seven days a week.

The Library installed a new long range device at this location to make the Wi-Fi reach further away from the library building, and from all directions. The library received a grant from the federal e-Rate program to fund this project.
