

The Heritage Public Library received a grant from the Rotary Club of New Kent and from Rotary District 7600. The funds from this grant will support the From the Heart Stitcher's program that is sponsored at both library locations. Equipment and materials will be purchased and made available for From the Heart volunteers to use to help others in our community. Sewing machines, a Cricut machine, sewing, crocheting, and knitting materials, instructional books, storage bins, and cabinets will be purchased to provide much needed resources needed to support our community needs. With the equipment and materials, regular Instructional classes will be held to teach people how to knit, crochet, and sew to help make items for others.
